NATIONAL MANUFACTURING
& SUPPLY CHAIN CONFERENCE
& EXHIBITION

Arena MK, Milton Keynes
25 June 2019

www.manufacturingevent.co.uk

THE SHOW AT A GLANCE

The National Manufacturing & Supply chain Expo is technology to industry Event organised by Premier Publishing & Events. It brings together National and International technology and Hardware providers across Precision engineering, Composites, Machine Vision, industrial data analysis, Innovation in Production Line and Automation, 3D printing, 3D Vision, Machine Learning, Process control and automation, Sustainability, IT Infrastructure Production Optimisation, Manufacturing Performance, Resource Planning

The beauty of the event is that you can share your product or service with a pre-selected audience while investigating the competition and building relationships with new customers.

With the right strategy, there is an opportunity to drastically expand your company's customer base. The visitors who attend our event are motivated, interested in the products or services your company offers, and often ready to commit to a deal on the spot.

In short, they're much more worthwhile leads than names and numbers picked out of a business directory.

Managing an exhibition at a large Multi—day event can become not only expensive but will take up the precious time and resources available to you. That's why our 1 day event format is showing phenomenal growth both in the UK and Ireland simply because it can be very hard for companies to remove sales and marketing employees from the workforce for multiple days. Also, we understand the needs of our exhibitors which allows us to have the right people visit your stand on the day.

So if your Business is in the Manufacturing sector within the UK then This is the right show for you.

Key Vertical Sectors

Manufacturing &
Engineering

Lean & Continuous
Improvement

Industry 4.0

Robotics &
Automation

3D and
composites

CUSTOMER TESTIMONIALS

"We are very happy with the event. Its been very well organised & attended. We made great contacts, so a fantastic return on investment for us."

Pierre Baviera – Presidion

"The quality of the conversations we had was great. We will definitely be doing it again in 2019."

Aidan McDermott – Easi LED

"The number of delegates has been far in excess of what we expected and the quality of people visiting the stand has been exceptionally good."

Peter Marsh – Touchstar Technologies

"All the delegates have been very relevant to us and to the manufacturing sector in general. All in all this has been a very worthwhile event for us."

Ian Bell – Manufacturing Excellence
